

TTY/TDD Training

Follow the link below to access TTY/TDD Refresher Training materials on-line through the North Central Council of Government's web site. Please be sure to read the *TDD/TTY Training Module Program Overview* if this is your first time using the site.

<http://www.nctcog.org/cs/911/TDD/>

The instructor for your PSAP will need to complete the "enter completed module registrations or add new participants" section, which can be selected at the agency log in area. Tarrant County 9-1-1 District will be notified which Telecommunicators from our agencies have completed TTY/TDD training from information provided on this section, and we will keep a log of completed training. Your agency will be responsible for submitting this training to TCLEDDS. If your agency does not have access to post training to TCLEDDS, contact Barbara Rice with COG at 817-695-9205.
